

Jordan Tower I Renovation Project Relocation Information

You are receiving this letter because you have a connection with a Jordan Tower I Resident.

All residents will need to temporarily relocate due to planned construction in their unit. Each unit will need to be prepared for construction before the resident temporarily leaves. While the resident is out of their unit, the unit will have no power, and the resident will not be able to return until construction is complete.

Each resident will be out of their unit for approximately two to three months during construction. The exact dates will be shared with each resident as the schedule is finalized. The dates will fall between January 2027 and November 2027.

Each resident has two options to choose from, and an agreement must be signed for whichever option is chosen.

- Self-Relocation
 - No rent will be due on the unit while the resident is out for construction.
 - A relocation voucher of \$50 per day will be offered. This is approximately \$1,500 per month.
 - Please read the agreement fully for more information.
- HRA Supplied Unit
 - The HRA will hire a moving company to move approved items between the permanent unit and the temporary unit.
 - Rent will be due the same as the permanent unit.
 - The resident agrees to return to their prior unit when directed to do so.
 - Please read the agreement fully for more information.

Each resident needs to choose an option, and the agreement must be signed and returned to the HRA office. A relocation meeting is being scheduled for the beginning of October to review the options and the agreements.

A relocation packet will be distributed to all Jordan Tower I Residents at the end of September. Please reach out to the resident to learn more about their specific options, dates when they will be out of the unit, and the date and time of their relocation meeting.

Prior communications are available on the HRA website at www.redwinghra.org and at the HRA office. Some of the prior communications that have been distributed are three residents' packets, meeting packets, and frequently asked questions.
